

If you could protect a child from bullies,
would you?

We hear the horror stories all too often: Cyber predators groom children by pretending to be an online peer. Cyberbullies intimidate children and upset their lives. Kids derail their reputations by sexting. Others damage their digital footprint through unwise social media posts.

Imagine if the Internet in its current form had existed when you were a young person: your every mistake and insecurity publicly documented and preserved forever online for your peers, teachers and potential employers—even strangers—to view and potentially use against you.

DigitalDanger.org: Because cyberbullying is *real* bullying

In Ohio, there is only one nonprofit providing digital safety training for students, helping educate thousands of young people about what they can do to avoid the dangers that lurk online: **DigitalDanger.org**.

We visit thousands of students in schools across the state of Ohio, and also offer educational programming for educational administrators, teachers, and other professionals.

Our presentations are delivered by a caring and charismatic team of law enforcement and education professionals. The presentations are engaging and accessible, often prompting students experiencing bullying and abuse to confide in us—and enabling us to connect them to the resources they need.

Since our organization's founding in 2008, the demand for our services has grown exponentially. In the 2013-14 school year, over 41,000 students attended our trainings; for this school year, we anticipate that number will grow to over 90,000.

In order to keep up with the pace, we rely upon individuals, corporations, and foundations who are willing to stand up to bullies by supporting the important work of DigitalDanger.org. **You can help stop bullying with your tax-deductible gift.**

DIGITAL
DANGER
.ORG

How far would you go to keep children safe from bullies?

DigitalDanger.org professional staff works for our organization as a labor of love—out of pure care and compassion for young people. As the need for our services continues to grow, however, we are stretched thin. **Your support will enable us to expand our services so that we can continue to meet the needs of young people in our communities.**

When you give to support the work of the DigitalDanger.org, you get great value for your philanthropic investment: For less than \$2, we can train a student to be safe online. Just imagine the impact your philanthropic dollars can have for Ohio's children!

It is easy to support DigitalDanger.org:

- Visit our website at digitaldanger.org and make a safe, secure donation online
- Send your check to: DIRG, P.O. Box 1236, Hilliard, OH 43026
- Sponsor DigitalDanger.org to visit the school of your choice
- Invite DigitalDanger.org to give a presentation to your company or service group
- Showcase your business' support for internet safety in front of a growing audience of young people through corporate sponsorship of our presentations
